Howard Amos

Program

Introductions

1. **Setting the scene, current environment for Research Repositories**
2. **Background to Case Studies**
3. **How we are going to run the session**
4. **2 minutes for each person - Sydney, Curtin, Vict NZ, Macquarie, Canterbury, Uni SA, Murdoch, USC, Uni Auckland, UNSW, AUT, Swinburne (24 minutes)**
5. **Group work - jot down all the questions. Must be to a person (25 minutes)**
6. **1 minute answers (10 minutes)**
7. **Wrap up session Prof Alan Smith - CAIRSS for support (10 minutes)**

Setting the Scene

Research Repositories – where are we now?

Questions for the future

Background

Copied the idea from the Repository Managers session at Open Repositories Conference 2008 – Southampton in UK

- **Repository Managers got huge value in interacting with other RM's**
- **Case studies were a valuable tool to model systems**
- **Why reinvent the wheel**

What we would like you to do

- **Listen to the 2 minute madness sessions.**
- **Gather together in groups of 5-7 people.**
- **Discuss and chat about your own situation, formulate 2-3 questions for the speakers. (you have 25 minutes) note who the question is directed to.**
- **Howard, Teula and Leonie will pick 10 questions from the groups that reflect the consensus.**
- **Keep the responses short – 1-2 minutes max**
- **A summary of the session will be added to the compiled case studies after the conference.**

2 Minute Timer

Speaker 1: Sten Christensen
