Dropbox for Education – Allowing faculty and students to securely share, sync and collaborate

Learn about how Dropbox for Business lets faculty and students easily share assignments, reference materials, and syllabus from anywhere with the apps they're already using. And with support for Windows, Android, iOS, Mac, and Linux, no one's left out in the cold. With more than 300,000 apps on the Dropbox Platform from Blackboard to Turnitin to Papers faculty and students can work together with the programs they're already using.

Mike O'Brien

Account Director for Higher Education in Australia and New Zealand
